

IKO-TAMS was founded in Sept. 1978 to promote the collecting and researching of all types of exnummia, and to provide a forum for members to interact with one another. Our early years were primarily focused on the tri-state region from which we take our name. Subsequently, members joining from many states have resulted in a broader focus for our group.

Our annual two-day token and medal show extravaganza includes a popular mail/bid board auction in addition to the customary buying, selling and trading activities enjoyed by collectors and dealers, some of whom have traveled long distances.

The IKO-TAMS Bulletin is our newsletter which binds us together with news of the Society, exnummia articles, maverick token listings, classified ads and more.

In the past, IKO-TAMS has published the catalog of "Indiana Trade Tokens" by Lloyd Wagaman, and the first and second editions of "Ohio Merchant Tokens" by Gaylor Lipscomb. Both of these authors were founders of our group and played a large role in our success. In the future we plan to publish an updated Indiana book and possibly one for Kentucky. A supplement to the Ohio catalog is currently in preparation.

Membership dues are \$10 per calendar year, or for \$5 additional, a member may sponsor a relative in their immediate household as an associate member. (Only one Bulletin will be sent.) Anyone joining during the final quarter of a year is automatically paid up for the following year. Over the years, Honorary Life Memberships have been awarded to members who have given distinguished service to the Society.

We invite you to use the attached membership application to join our ranks. If you are interested in any type of tokens, medals or other forms of exnummia such as encased coins, animal tags, baggage checks, casino chips, pocket mirrors, etc., you will surely benefit from a membership in IKO-TAMS.
