## THE PONY HOUSE BAR

*submitted by Dave Gossett*

*(The following article was sent in by Dave Gossett and is taken from the menu of a local restaurant. Dave says this article "is from the menu for Jay's Seafood Restaurant regarding the old, ornate bar from The Pony House from which came many tokens over the years. Barney and Smith were well known builders of railroad passenger cars and later, interurbans. Jay's is still in business.")*

In the year 1882, James Jacob Ritty, opened the Pony House Restaurant. He commissioned wood carvers from Barney and Smith Car Works to turn 5,400 pounds of Honduras Mahogany into a bar. The fruit of their labor is the bar you now see standing in Jay's.

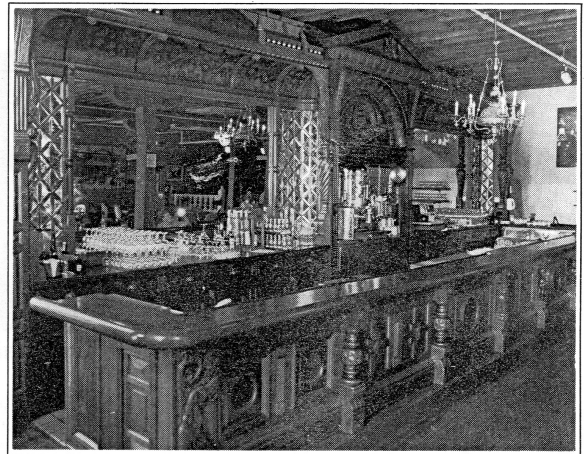

The building on South Jefferson Street that became Mr. Ritty's Pony House Restaurant was previously a school of French and English for young ladies. You can see the large picture of the school on the southeast wall of Jay's.

Dining, drinking, and gaming were the traditional fare of the Pony House; however, legend has it that an even wider choice of vices were available. The establishment had its share of well-known visitors . . . Buffalo Bill Cody is said to have ridden his horse right up to the bar. The notorious John Dillinger (who never robbed a saloon) was one of the regular customers. Prize-fighters, such as Sullivan, Jeffries, Corbett, and Jack Dempsey seemed to find the Pony House a favorite place to imbibe.

## OCTOBER IKO-TAMS SHOW

### **T**hirty Years Ago In IKO-TAMS

*photo courtesy of Virginia King*

Do you recognize the IKO member at the left? This came from an IKO Show in the early 1980's in Englewood, OH. This member has sold tokens and medals at the show for many years, and will hopefully be at Englewood again this year.

I urge you to stop by his tables this year, too. He always has an extensive collection of tokens, medals, and reference material. I never miss an opportunity to examine his offerings and don't remember ever walking away

without something added to my collection. Don't forget to look at his reference books for sale, too.

For those of you who are new to IKO, you may not recognize him. Look for the person with the largest display of tokens and medals at the show. He won't disappoint you!

An argument I always make for attending the Show is for the social aspect of attendance. Year after year, while adding many new tokens to my collection, the most memorable feature of the Show are the friendships renewed and new friendships created.

Thinking back to previous years, talking with old friends, sharing stories of the previous year, comparing new token finds, etc., are the things that stick in my mind as the most enjoyable part of the Show. I have not been collecting tokens as long as most of you, so I missed out on meeting some of the early members of IKO. I love hearing the stories about the old-timers. The adventures of Virginia King, her husband

Ralph, and their friends Lloyd and Alberta Wagaman are highly entertaining. Stop by her table and be regaled. (Yes, Virginia will be at the Show this year. She missed last year due to back surgery, but has recovered and will rejoin us.)

Last year I met Richard Seipelt for the first time. Richard is a two time President of IKO, including our first ever, and was instrumental in the founding of IKO. I can now put a face with the name.

For the sake of the old-timers I am also including some additional photos from the collection of Virginia King. These are from IKO Shows of the early 1980's held at Englewood.

If anyone would like to share photos taken at this year's Show I will try to get them in future editions of the Bulletin.

Let's not forget the wide selection of material offered by our sellers. I did not get to many tables last year, due to being a first time seller myself, but that will change this year. While I will need to be available to sell the last of the Brandush estate, I also want to see some of the merchants I missed last year. I left far too many tokens behind!

Please see the last pages of this Bulletin for details of this year's Show. I hope to see many of you there.

## THE PONY HOUSE BAR

(continued from page 25)

History tells us that Jake Ritty was the inventor of the first cash register, and that ultimately his rights were sold to John Patterson . . . thus leading to the establishment of the National Cash Register Company.

The saga of the Pony House continues, when in 1967, Mr. Ritty's bar was about to fall prey to the wrecking ball. Mr. William H. Eicher of United Moving & Storage, Inc., of Dayton preserved its heritage by photographing, removing, and restoring the famous bar, enabling it to be completely reassembled and again take its place as the important piece of Dayton history that it always will be.

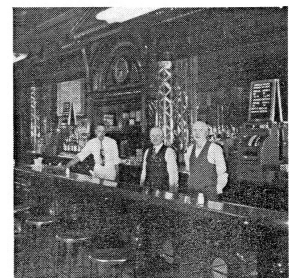

James Ritty called himself "Dealer in Pure Whiskies, Fine Wines, and Cigars". He opened his first saloon in 1871, the Pony House in 1882, and retired from the bar business in 1895. In those years, beer was a nickel a stein and 15¢ a bucket. A free lunch was open to all, consisting of boiled eggs, sardines, blind robins [*extremely salty pickled herring – KG*], cold meats, pig's feet, pickles, pretzels, crackers, and bread.

Jay's is, in effect, a continuation of Ritty's Pony House. The bar saw service from 1882 until 1967, even through Prohibition years. In those dry years, Ritty's Pony House Saloon became the Pony House Stag Hotel, and the Pony House Restaurant and Café. Being near the Railroad Depot, the astute Ritty provided a Sample Room, and the Pony House became a favorite stopping place for salesmen who covered their territories by train.

WHEN BEER CAME BACK IN 1933

THE PONY HOUSE OF 1952

The light fixtures here at Jay's are antiques, although the origin is unknown. The railing comes from the Old Xenia Hotel and the back of our oyster bar is from College Corner, OH.

# IKO REPORTS

## PRESIDENT'S MESSAGE

Our annual show is rapidly approaching and we are looking forward to one even more successful than last year. The assistance of you the members will help make it grow to become what it can be. How you ask? The answer is by putting the word out to your collector friends and the shops where exonomia is bought and sold and to other collecting organizations to which you may belong. Our dealers offer a good selection of merchandise including books and other printed matter. The tables are reasonably priced. Our bourse room is well located near major interstates, name motels, a good selection of restaurants, and the Dayton International Airport. Our mail/bid board auction will have some very interesting items. The show is well worth the time & effort to get there. If you would like some show flyers to distribute, you may photocopy the one enclosed herein or let me know if you would like some mailed.

Just a reminder, our honorable editor has been long and hard at work on a new edition of the Indiana Trade Tokens book the scope of which will be broader than the original, If you have any pieces that may not have been reported to Kevin, please let him know soon.

## JUNE IKO MEETING

The Warsaw Regional meeting went off without a hitch and all who attended were glad they did. In attendance were 10 members and one guest. Virginia King made sure the room and refreshments (with an assist from Kevin) were ready as always. One of our members stepped up and stated he would take the Secretary's job late this year or early next year. This was welcome news that another member was willing to take responsibility for our future.

Our members who pay their annual dues at the Oct. 12th & 13th show will receive a bonus. This is an aluminum token (actually a medal) struck years ago by the Dayton Stencil Co. to commemorate the 25th anniversary of the Society (you may pay for multiple years, but you will only receive one token). Any member who can't make the show can have one mailed to them, while supplies last, by sending a SASE to me with their dues payment NOT LATER THAN Dec. 1<sup>st</sup>.

## TREASURER'S REPORT

IKO bank balances as of June 30<sup>th</sup> were as follows: Operating account, \$4,200.92; Book fund \$10,400.

## EDITOR'S NOTES

Thanks to Billy Shivers and Rob Segers for the use of their token images used in the Pony House Bar article. It always adds to the interest when we can show some of the tokens used in the business.

For those of you attending the October Show and wanting to see the business described in the article, visit their website, [www.jays.com](http://www.jays.com), for a preview of their menu and any current promotions. Dave Gossett describes the restaurant as a special experience.

I hear from IKO members that this has been a good summer to "beat the bushes" for tokens. Despite the hot weather, a lot of you have done well uncovering new tokens that have been laying around for many decades. Thank you for sharing your new finds with me and good luck with your future trips.

As always with the third quarter issue, much of this Bulletin has been devoted to the October IKO Show. I hope you will find time in your busy schedule to take in at least one day of the festivities. Dave Gossett puts in many hours as the Show Chairman, as does Terry Stahurski as the Auction Chairman. The end result is a better end product for the rest of us.

However, if we don't take advantage of their hard work, then their efforts are wasted. If you are able to come, stop by their tables to show your appreciation. Let them know you value their work on behalf of IKO. Even if you can't make it to the Show, look over the Auction listings and send Terry your mail bid(s). One way or another, I hope we all find a way to make the IKO Show a better event year after year.

I hope everyone notices the number of mavericks attributed in this issue. The internet is becoming a powerful tool for many applications. One of the areas that help us make attributions is the growing set of tools available to genealogists. Many search engines developed to find family histories can also be used to find token histories. By entering the merchant name and address (if that's what the maverick shows) into one of these genealogy search engines, matches can be found. With a little work, the list of matches can be pared down to find an attribution. It can be a time consuming process, but it is demonstrating results.

Now is a good time to send in your mavericks to see what you have. You never know when your "ugly duckling" may grow up to be a "beautiful swan".

# IKO MAVERICKS

Mavericks for this column may be sent to the address of the Maverick Editor given on the 2<sup>nd</sup> page of this newsletter. *Please include a phone number or email address in case I have any questions about your submission.* It is very important to me to get these listings correct the first time. As a former Maverick Editor once told me, "Once a mistake gets into the published literature, it is almost impossible to correct". It is my job to get these done right and I will strive to do so. Thank you.

Please email me if you want an electronic copy of the IKO mavericks in PDF format. The program that reads this file is free. If you don't have it, let me know and I can send instructions to get that, too.

☞ Many thanks to those sending in your mavericks. I have enough for several issues, but can always use more. One point – **it pays to have your mavericks attributed!** One recent attribution revealed the maverick is worth \$400. What tokens do you have that are unattributed and waiting to be placed prominently in your collection?
